

Lab and Exam Timeline

Due Date	Homework/Project/Exam	Quiz Due Date
Sat. 6/15	Lab 0: Device Query	Sat. 6/22
Tues. 6/18	Lab 1: Vector Addition	Tues. 6/25
Sun. 6/23	Lab 2: Simple Matrix Multiply	Sun. 6/30
Sun. 6/30	Lab 3: Tiled Matrix Multiply	Sun. 7/7
Wed. 7/3	Exam 1: 7:00 – 9:00 p.m.	
Sun. 7/7	Lab 4: 3D Convolution	Sun. 7/14
Wed. 7/10	Lab 5: List Reduction	Wed. 7/17
Sun. 7/14	Lab 6: Scan	Sun. 7/21
Wed. 7/17	Lab 7: Histogramming	Wed. 7/24
Sun. 7/21	Lab 8: Sparse Matrix Multiply	Sun. 7/28
Sat. 8/3	Exam 2: 10:30 a.m. – 12:30 p.m. (our final exam slot, but exam covers primarily second half of class)	

Labs are done through Delta. Labs are available two weeks in advance (we probably won't modify them, but reserve the right to do so until that time), and are due on the day stated at 11:59:59 p.m. Each student is automatically granted TWO extensions of 48 hours on labs. These extensions are used AUTOMATICALLY by any lab submission made after the deadline above. Further late submissions (after use of two extensions) will earn no credit. Also, the lowest combined lab+quiz grade will be dropped.

Exams in this class are usually in the evenings on class days, and class on these days is cancelled in lieu of these exams. Since we have a two-hour final slot in summer, we'll just use that time (see above) for the second exam, but it's a second midterm, not a comprehensive final exam. Exams will be held online, and **you must have a working camera to participate**. Showing up to the exam without a working camera will earn no credit.

Quizzes for Labs 0 through 8 will be available **on PrairieLearn for one week** after the corresponding lab deadline. Be sure that you understand the relevant conceptual material associated with the lab before trying the quiz. You have only one attempt at each quiz, with a time limit of an hour (three tries for most questions, with decreasing points for each try). Quiz deadlines are hard—take them early to avoid missing them.

NOTE: Project deadlines are **NOT SHOWN HERE**; they will begin in early July and extend into the final exam period, and no final exam is given (exam 2 is not a final exam). A separate project guide will be provided later in the semester.
